RISK TO INVESTORS

For details refer to section titled "Risk Factors" on page 37 of the RHP

- Market volatility risk:** Our business, operating within India's investment and wealth management industry, are influenced by a variety of domestic factors, including fluctuations in gross domestic product, changes in monetary, tax and other policy measures, political and regulatory developments, inflation, interest rate levels, shifts in consumer spending and saving patterns as well as investor sentiment. Any material slump or prolonged downturn in the Indian or global financial markets could adversely impact the volume of trading and investment patterns which can affect our operations and financial condition.
- Technology risk:** Uninterrupted access to our technology platform is critical for our operations. System failures and interruptions could adversely affect the availability or performance of our website, mobile applications or platform. The
- Business concentration risk:** We derive a significant portion of our revenue from our Broking Services. Any downturn in customers' willingness to use our Broking services could have an adverse impact on our business, financial condition and cash flows. The table below sets forth revenue by product for the period/years indicated:

Particulars	Three months ended				Fiscal Year ended					
	June 30, 2025		June 30, 2024		March 31, 2025		March 31, 2024		March 31, 2023

- Regulatory risk:** Our business is under the purview of regulators and statutory authorities in India, which include, among others, SEBI, RBI and the stock exchanges. We are subject to changes in the regulatory framework applicable to us, and amendments to these regulations may impact our business and operations. For example, in 2024, SEBI introduced a new framework for derivatives (circular titled "Measures to Strengthen Equity Index Derivatives Framework for Increased Investor Protection and Market Stability" dated October 1, 2024), which, among other things, increased the contract size of index derivatives (from a range of ₹0.50 million to ₹1.00 million to a range of ₹1.50 million to ₹2.00 million) and reduced the extent of index derivatives products offered by exchanges which would expire on a weekly basis each with effect from November 20 2024. Further, SEBI's circular dated October 1, 2024 on "Charges levied by Market Infrastructure Institutions - True to Label" (effective from the date of the circular) required us to revise fee structures such that fees we charge do not exceed the actual charges imposed by market infrastructure institutions. As a result of these regulatory changes, our fees and commission income, Broking Transacting Users and Derivatives Active Users declined in the three months ended June 30, 2025 as shown in the table below:
- Risk relating to profitability:** We incurred net losses for the year in Fiscals 2024 amounting to ₹ 8,054.50 million, primarily due to a one-time tax expense related to the amalgamation of our Company and Groww Inc., as well as performance-based incentive payouts to our management during the year and generated profits in Fiscal 2023, Fiscal 2025 and in the three months ending June 30, 2025 and 2024, respectively. If we are unable to generate adequate revenue growth and manage our expenses and cash flows as we grow, we may not be able to sustain our profitability.
- Cybersecurity and data breach risk:** We are vulnerable to cyber-attacks, such as hacking, phishing, and trojans, which could exploit our network and disrupt our services and/or result in the theft of sensitive internal company data or customer information. Any actual or perceived cybersecurity, data or privacy breach could interrupt our operations and adversely affect our reputation, brand, business, financial condition and results of operations.
